

Basic Next Generation Sequencing (NGS) procedures

22-23-24 giugno 2022

Il corso si svolgerà in modalità telematica.

Orario delle lezioni: 22-23 giugno: 9-12; 24 giugno: 9-12 e 14-17.

Docente: Dott.ssa Roberta Carriero – Istituto Clinico Humanitas, Milano

I giorno

- Introduction & overview of NGS (RNA and DNA sequencing) (lesson)
- Introduction to Linux and R and command line interface (lesson/practical)
- NGS data format (FASTA, FASTQ, SAM, BAM, GTF)

II giorno

- RNASeq Analysis Workflow and planning (Quality Control, Alignment, Gene expression quantification, Differential expression analysis) (lesson/practical session)
- ChIPSeq workflow - optional - (Alignment, Peak calling, downstream analyses)
- Public available resources

III giorno

- Single-cell Next Generation approaches (lesson)
- Single-cell RNASeq Analysis Workflow and planning (Quality Control, Alignment, Gene expression quantification, Differential expression analysis) (lesson/practical session)

CV Roberta Carriero

She's an expert in computational biology, with a strong background in the analysis of big data. Her education includes a biological training addressed to the specialization in bioinformatics. She has been working in the field of bioinformatics for 9 years in Italy, with a period of training abroad. She trained for 5 years in the laboratory of Computational Biology at CNR of Pavia (Italy), spending a period in Tel Aviv at Sackler Medical School in the lab of Prof. Gil Ast. She developed skills in the field of transcriptomics and epigenetics, contributing to the analysis of RNA-seq and ChIP-seq data in different models of DNA damage response in human. During the period in Israel, she expanded her skills in the field of transcriptomics, focusing on the analysis of alternative splicing events in RNA-seq. In 2017 she joined the group of Prof. Mantovani at Humanitas (Milan) where she contributed to different projects related to cancer and immune system, especially in the transcriptomic field at single-cell level. She is currently part of the Bioinformatics Unit at Humanitas, where she supervised different research projects in the field of oncoimmunology.

Modalità di partecipazione:

Entro il 31 maggio 2022	Dopo il 31 maggio 2022
€ 200	€ 300

***In caso di esenzione IVA, allegare documentazione.**

Informazioni, CONDIZIONI GENERALI e modulo di iscrizione: www.afinsubria.org.

Pagamento da effettuare con bonifico bancario dopo conferma di attivazione del corso da parte della segreteria organizzativa.

Beneficiario: D'Urso & Fanali S.r.l.

Causale: Nome Cognome NGS 2022

Iban: IT87P0503450233000000000292
Bic / Swift: BAPPIT21L99

Segreteria scientifica e organizzativa:

Dr.ssa Gabriella Fanali, Alta Formazione Insubria
